TECHNICAL SKILLS

JavaScript (ES6+), HTML5, CSS3, C++, React.js, Redux, Angular, Node.js, Express.js, RESTful API Development, MongoDB, Mongoose, GitHub,

OBJECTIVE

Enthusiastic and innovative MERN Stack Developer aiming to leverage extensive skills in MongoDB, Express.js, React, and Node.js to build dynamic and responsive web applications. Committed to writing clean, efficient code and solving complex problems, with a focus on optimizing user experience and integrating the latest web technologies. Seeking to contribute to a forward-thinking team where I can continue to develop my technical abilities, collaborate on challenging projects, and make a tangible impact in the field of web development

PROFILE SUMMARY

- Experience: 8+ months in MERN Stack development.
- Frontend Proficiency: Expertise in React.js, Angular, and responsive design.
- Backend Development: Skilled in Node.js, Express.js, creating RESTful APIs.
- Database Management: Proficient with MongoDB, SQL databases.
- DevOps & Tools: Experienced in GitHub.
- Testing: Knowledgeable in Jest, Mocha.
- Soft Skills: Agile methodology, team leadership, effective communication.

PROFESSIONAL EXPERIENCE

Primafelicitas

August 2023 - Present

MERN Stack Developer

- **Role:** MERN Stack Developer
- **Company:** PrimaFelicitas Pvt. Ltd., Noida Sec-63, India (AI & Web3 Development Company)
- **Responsibilities:**
 - Developed and integrated 1000+ APIs using Node.js, Express, and Redux Saga.
 - Worked extensively on creating and maintaining 1000+ dynamic components.
 - Developed various functionalities using JavaScript.
 - Responsible for building and maintaining scalable web applications using MERN stack.
 - Implemented and integrated RESTful and third-party APIs.
 - Focused on optimizing application performance and conducting code reviews.
 - Collaborated with QA team for bug identification and resolution.
 - Involved in design and architectural discussions, enhancing system scalability and efficiency.
 - Developed APIs with advanced features like aggregation, and search, sort, and filter functions.

EDUCATION

Chaudhary Charan Singh University

2019 - 2022

Bachelor of Computer Application

Bloom Public Sr. Sec. School

2017 - 2019

Senior Secondary (12th Grade)

ACHIEVEMENTS

Data Structures and Algorithms (DSA) Mastery:

- Successfully solved over 250 challenging problems on renowned coding platforms, GeeksforGeeks and HackerRank, demonstrating exceptional problem-solving and algorithmic skills.
- Secured victory in the competitive Jobathon 10 hosted by GeeksforGeeks, underscoring my proficiency in DSA and coding efficiency.
- Actively engaged in the coding community; my profiles showcasing problem-solving skills can be viewed at:
 - **Leetcode Profile:** https://leetcode.com/sahil_9205/

PROJECT

- NFT Creating and Selling Platform (08/2023 - Present)
 - Role: Developer
 - Description: Currently spearheading a dynamic NFT marketplace project. This platform enables artists and museums to buy and sell NFTs.
 - Key Contributions:
 - Developed a comprehensive admin panel for managing the platform.
 - Designed user-friendly interfaces for both sellers and buyers.
